- Built with **Javascript**, **Typescript**, **Prisma**, **Fastify** and **Postgresql**.

EDUCATION

Full Stack Development*Self Taught*

February 2022 - December 2022

I have studied programming under the mentorship of an industry veteran. Along with MEAN and MERN stacks he taught me the workflow of source control, Jira, and Agile work structure. I have worked on several applications demonstrating my understanding listed above.

College of the Redwoods*Undergraduate/Nursing*

January 2020 - Dec 2021

Maintained a 4.0 GPA through four semesters of full time undergraduate nursing studies while being primary caretaker of my children and working 20+ hours a week. Awarded President's Honors each semester.

WORK HISTORY

Web Developer*Freelance*

December 2022 - Current

- Work with clients to design, construct and deploy personalized websites
- Efficient communication to establish client vision, ideas, timelines and expectations
- Work with languages and frameworks such as **Javascript**, **HTML**, **CSS** and **React**
